Profile

Computational Scientist & Software Developer

MSc Computational Chemistry (EPFL) and 42Lausanne software engineering student with 5+ years experience in **scientific computing, machine learning, and development**. Proven track record in **data analysis, algorithm design, and high-performance computing** for research and industry applications. Combines strong **problem-solving abilities** with expertise in **Python, C/C++, ML frameworks, and agile methodologies** to deliver robust computational solutions.

Key Skills

- Problem Decomposition & Analytical Reasoning
- Low-Level & High-Level Programming
- Computational Chemistry & Scientific Computing
- Machine Learning & Data Analysis
- Agile Methodologies & Collaborative Development

Technologies

Advanced Python, C, Machine Learning, Git

Intermediate C++, SQL, JavaScript, Django, React, Bash, Docker, Fortran (77 & 90), GoogleScript, AWS, Azure DevOps

Basic Cobol, Matlab

Experiences

02/23 - 01/24 **QC Support Technician**, Merck - Randstad, Corsier-sur-Vevey

08/22 - 12/22 **Teacher**, Gymnase du Bugnon, Lausanne

03/21 - 12/21 **Pre-Doctoral Student, IBM Research**,

Designing and training Artificial Intelligence models for predicting material phase diagrams

🔗 [Prediction of Phase Diagrams and Associated Phase Structural Properties](#)

01/20 - 06/20 **Junior Computational Chemist, Hafnium Labs**,

Designing tools to generate chemical structures for estimating thermodynamic properties

Spring 2019 **Master's Thesis, LSMO - Prof. Berend Smit, EPFL Sion**,

Estimating stacking modes of Covalent Organic Frameworks

Fall 2018 **Internship, LCSB - Prof. Hatzimanikatis, EPFL**,

Reconstructing reactions for enzyme attribution on biological databases

🔗 [ATLASx: a computational map for the exploration of biochemical space](#)

Fall 2016 **Research Assistant, LCBCPC - Prof. Roethlisberger, EPFL**,

Implementing transition dipole moment calculations

Education

2024 - **Digital Technology Architect**, Ecole 42 Lausanne

2017 - 2019 **Master in Molecular and Biological Chemistry**, EPFL

2013 - 2017 **Bachelor in Chemistry and Chemical Engineering**, EPFL

Languages

French Native Language

English Fluent (C1)

Interests

Non-Profit Artiphys: Tech manager, Logistic manager, President

Satellite: Games and Comics manager

Franc-Parler: Teaching french to adult foreigners

Hobbies Chess, Cooking, Pottery

Sports Hiking, Sailing, Badminton
